### **Tone in Tone:**

The tone in tone effect is made by switching colors in the following way:

Work 8 rounds of alternately sc and lsc in color 1.

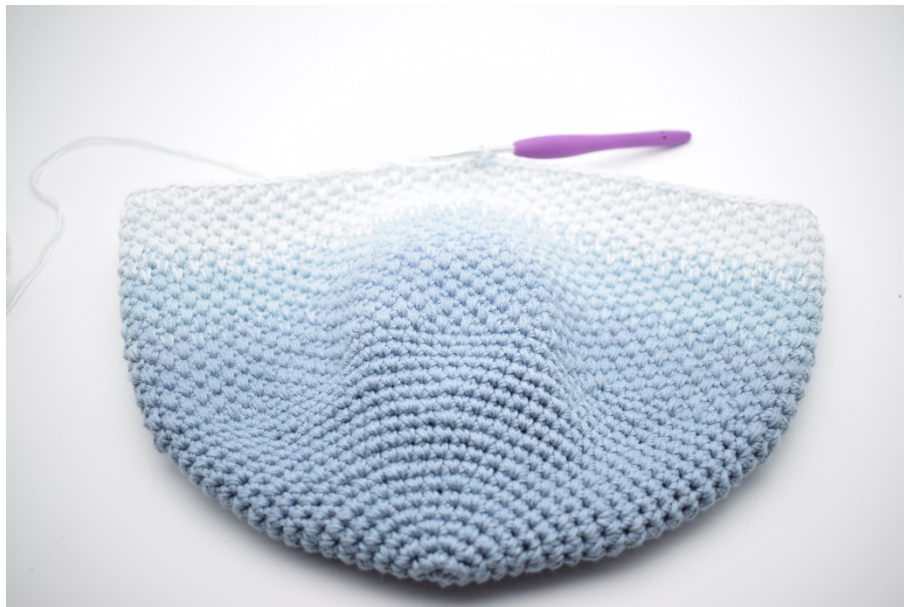

Replace 1 strand with color 2 so you're now working with colors 1 and 2. Work 3 rounds.

Switch so you've now only got color 2. Work 6 rounds.

Replace 1 strand with color 3 so you're now working with colors 2 and 3. Work 3 rounds.

Switch so you've now only got color 3. Work 6 rounds.

Replace 1 strand with color 4 so you're now working with colors 3 and 4. Work 2 rounds. Time to make the handle.

**Pattern guide:**

1. Your bottom has just been finished and the sides are now going to be worked in alternately lsc and sc. It is made in the following way: A lsc is made as a regular sc but in the st below. The needle here marks where your lsc should be made.

2. Like this. You've now made 1 lsc.

3. Work 1 sc as normally in the next st.

4. Like this.

5. Next st is another lsc. It is made like a normal sc but in the st below. (The needle here marks where your lsc should be made)

6. Like this.

7. Work 1 sc as normally in the next st.

8. Like this. This is repeated around.

10. When making the next round, work opposite, so you start the round with 1 sc, followed by 1 lsc. Meaning that you work sc in lsc from previous round and lsc in sc from previous round. Repeat the 2 rounds like this as described in the pattern.
