Felting:

Wash coasters on a warm cycle in a washing machine. Felting works best if there are other items in the load with the coasters (for example: towels or a pair of jeans). If they are not felted enough after the first cycle you may need to run them a second time. The amount of felting can vary from machine to machine, therefore it could be a good idea to make a test piece before felting the final product.

Here is what the piece looks like before felting
Approx. 5 ½ " in diameter

After felting
Approx. 4" in diameter

Attaching the leather strap:

1. Cut the leather piece to size and punch 2 holes on either end

2. Sew it securely to the felted coaster.

Enjoy!
