Cut yarn and weave in ends. Wash the trivet in a machine on a hot cycle to felt. If it is not felted enough after the first wash, run it work one more cycle. Shape while wet by pushing all of the bubble stitches into shape as needed.

Bubble Stitch: - See photo tutorial for rnd 3.

Work the BuSt as follows:

Wrap yarn over the hook and insert into st. Wrap yarn over the hook again and pull through the st. You now have 3 loops on the hook. Wrap yarn and pull through 2 of the loops. There are now 2 loops remaining on the hook.

Wrap the yarn over the hook and insert into the same st again, wrap yarn and pull through st. You now have 4 loops on the hook. Wrap yarn and pull through the first 2 loops. There are 3 loops remaining on the hook.

Repeat a total of 5 times, until you have 6 loops remaining on the hook.

Wrap the yarn over the hook and pull through all 6 loops. Pull to tighten a little. Your BuSt is now on the back side of the work, push it through to the front side with your finger.

Before and after felting:

The trivet on the left is what the piece will look like before felting. It measures approx. 9" in diameter. On the right, you can see the finished trivet after felting. The finished measurement depends on how much your washing machine felts the piece and can vary between 7" - 8" in diameter.

Enjoy! ☺
