Clutch

CO 40 stitches on circular needles size 8 mm / US11.

The first stitch is an edge stitch. Slip this stitch purlwise to create a smooth edge for sewing the clutch together.

Work back and forth in garter stitch until piece measures 40 cm.
Bind off all stitches and weave in ends.

Fold the clutch double and sew side seams together in edge stitch to avoid a chunky seam.
Now wash the clutch in the washing machine on 60°C with normal spin and no pre-wash.
Shape the clutch to the right size while still wet and leave to dry flat.

Sew on the handle and the zipper in the clutch. Sew on the label on the side of the clutch. If wanted, you can also add a lining to the inside.

Have fun with your new clutch!
