Pattern

Edge

Cast on 76 (80) 84 stitches and work in the round on the circular knitting needle.

Work 1 round of purl stitches

Continue in garter stitch until the work measures 13.4 (13.4) 13.4 inches (34 (34) 34 cm).

Place a marker at the beginning of the round and one in the middle of the round.

Armhole

Work until 3 stitches before the marker, cast off 6 (6) 6 stitches. Repeat from 'to' one more time.

Now you have 32 (34) 36 stitches on each part / each side of the marker.

Back

Work back and forth on the circular needle and let the stitches of the yoke stay on the circular needle without knitting them.

Work stockinette stitch straight up (with 1 edge stitch in each side) until the work measures 5.9 (5.9) 5.9 inches (15 (15) 15 cm) from the armhole.

Work 7 (8) 9 stitches to the shoulder, cast off 18 (18) 18 stitches very loosely, work the needle to the shoulder.

Place the shoulder stitches on separate stitch holders.

Yoke

Is worked as the back until the work measures 5.9 (5.9) 5.9 inches (15 (15) 15 cm) from the armhole.

Knitting the shoulders together

Place one of the two shoulders' stitches of the back on a helping needle.

Place the shoulders wrong side towards wrong side and work 1 stitch from each side together knitwise, work one more stitch from each side together knitwise and bind off.

Repeat this until there are no more stitches left on the back.

Cast off 18 (18) 18 stitches very loosely on the front piece, knit the other shoulder together the same way.

Weave in ends.

Happy knitting ☺
