Pattern informations:

The cushion is worked in a lace knitting pattern in which the holes on the purl row are purled through the back loop. Thus the holes are closed and the pattern looks really beautiful. You will not be able to see the cushion through the knitted cushion cover.

Knitting in the round on a circular needle.

Techniques:

Figure 8 cast on:

Cast on your stitches using the figure 8 cast on method to obtain a beautiful finish.

Magic loop:

The work is knitted in the round with a magic loop.

3-needle bind off:

The stitches are knitted together in the end and bound off in the same procedure.

Cushion

Cast on 150 stitches by using the figure 8 cast on method (75 stitches on each needle) on needle size 4 (3.5 mm).

After the cast on, change to needle size 6, and on the first round you knit the stitches through the back loop.

Divide the work in two by placing a marker at each end of the cast on stitches.

The description of the work consists of 75 stitches and they are repeated one more time so the cushion looks the same on each side.

Edge stitches

Knit the first 3 stitches and the last 2 stitches.

The pattern chart is repeated 7 times on each side.

The yarn over is knitted through the back loop, so the pattern is closed.

- Knit right side, Purl wrong side
- Knit 2 together through the back loops
- Knit 2 together
- Yarn over

Continue until your work measures approx. 14.6 inches (37 cm). It is important to finish with round 6 or 12 in the pattern chart.

Work one round of knit stitches.

Insert a cushion in the cushion cover, knit the stitches together and bind off with the 3 needle bind off. Weave in the ends.

Happy knitting!
