Felting:

Note: Felting can vary from machine to machine.

Wash the basket on a normal wash program on warm (60 degrees). Do not use the “quick” or “short” program. Sometimes you may need to run it a second time to achieve the desired amount of felting.

Once the baskets are felted enough, shape them while they are still wet. Allow to dry fully.

Before Felting:

After Felting:

Shape the basket while it is still wet and fold the edge down as shown in the photo.

Enjoy! 😊

Best wishes, Hobbii
