Felting:

Note: Felting can vary from machine to machine.

Wash the basket on a normal wash program on warm (60 degrees). Do not use the “quick” or “short” program. Sometimes you may need to run it a second time to achieve the desired amount of felting. Once the baskets are felted enough, shape them while they are still wet. Allow to dry fully.

Before Felting:

After Felting

Attaching the handles:

Cut your leather pieces to size and make a hole on both ends. Attach them to the sides of the baskets using the rivets.

1. Shape the basket while it is still wet. Let dry.

2. Cut your leather pieces to size and make a hole on both ends.

3. Attach the leather pieces to the sides of the baskets using the rivets.

Enjoy! 😊
