Moss Stitch Basket

The pattern describes how:

1. The baskets are crocheted with crocheted bottom.
2. The baskets are crocheted if use of Go handmades firm bases (PU leather bases).
3. The basket are crocheted higher or lower.

Incl. tutorial for lining.

Diameter measured at the bottom.

Size: D 20 cm x H 8 cm/Cosy yarn 150 g.

Size: D 24 cm x H 9 cm/Cosy yarn 175 g.

Size: D 26 cm x H 10 cm/Cosy yarn 250 g.

Double thread: 8 ddc and 7 dc/10 cm.

Crochet hook: 4,0 - 4,5 mm.

Crocheted in Go handmades Cosy - A wonderfully soft and high-quality cotton mix that keeps the shape. 60% Cotton/40% Acryl, 50 g/100 m.

Go handmade felt - a really good choice as lining for the crocheted baskets. The lining gives a special finish, an extravagant look and it keeps the baskets in shape.

GOOD TO KNOW FOR THE PATTERN

Hook, size and gauge

This pattern is meant to be crocheted with a normal to firm gauge to achieve the correct effect. Be aware that the final size may vary with a couple of cm more or less depending on your gauge.

If you find the gauge of this pattern challenging, we recommend to use the measuring tape regularly.

Crochet hook: 4,0 - 4,5 mm

Gauge:

Sidepiece: 8 ddc and 7 dc for 10 cm

Bottom: 20 dc for 10 cm

The baskets are crocheted with double thread.

ABBREVIATIONS AND DEFINITIONS

st(s)	Stitch(es).
mr	magic ring.
ch	Chain stitch.
sl st	Slip stitch.
dc	Double crochet.
ddc	Deep double crochet.
bl	Back loop.
spir	Spiral
dc 2 tog	Decrease (2 dc worked together).
2 dc inc	Increase (2 dc in one st).
...	The instructions shown in these must be repeated for the whole round or with the number indicated after x.
(..)	At the end of the round/row - indicates the total number of stitches. For the baskets with firm bottom, indicates the number of stitches for the 3 basket sizes. Sizes: D 17 cm (D 20 cm) D 25 cm.

NB!

For each round of the base, add 6 sts.

We recommend placing a stitch marker at the start of each round when crocheting in spiral.

The height of the basket can be changed by adding x amount of rounds or reducing the number of rounds.

TO CROCHET IN A SPIRAL – WHAT DOES THAT MEAN!

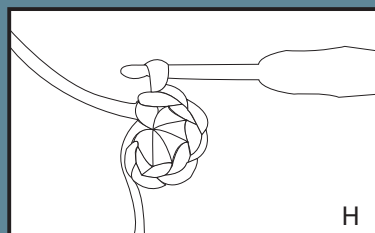

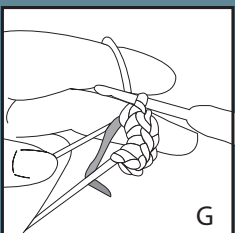

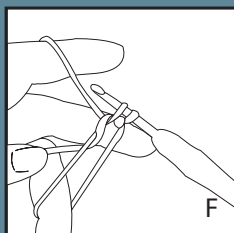

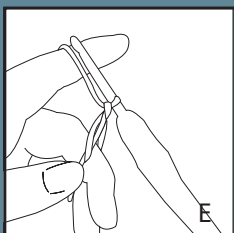

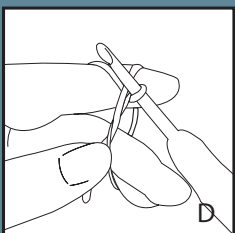

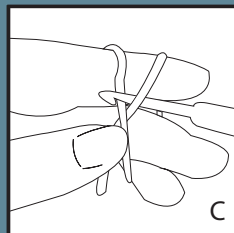

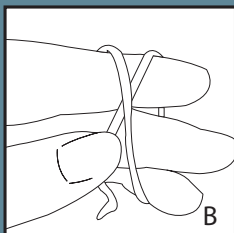

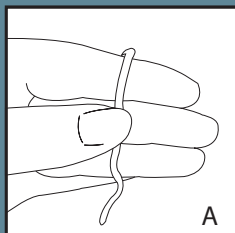

To crochet in a spiral simply means to crochet in continuous rounds.

As an example, once you have crocheted the foundation chain as the first part of a basket, the work continues round and round the chain. The most important part of crocheting in a spiral is to continue the rounds without finishing each round with a sl st but continuing around.

Guidance on how to do the Magic ring

Method:

1. Place the yarn on the 3 middle fingers. Hold the yarn with your thumb. (A)
2. Take the yarn once round your fingers so that it makes a cross. (B)
3. Insert the hook under the lower piece of yarn. (C)
4. Pull the upper piece of yarn under the lower piece of yarn – there is now one loop on the hook. (D)
5. Pull the yarn through the loop on the hook – this is the foundation of a magic ring. The st on the foundation does not count as a st - its function is to pull the magic ring tight. (E)
6. Crochet the number of dc's as required by the pattern. (F)
7. When the requisite number of dc's have been made, pull the yarn end – indicated in grey. (G)
8. The magic ring is finished, and you continue the work according to the pattern. (H)

Basket with firm base and holes

Sizes: D 17 cm (D 20 cm) D 25 cm

In principle, it is very easy to crochet from Go Handmade's firm bases.

The bottom:

- 1.) Start anywhere by crocheting 1 dc in the first hole.
Then 2 dc in the following holes. When you reach the starting point, crochet 1 sl st in the first dc (the one started out with). (75 (87) 119)

The sides:

From here on the work is done in spiral

- | | | |
|------------|--|---------------|
| 2.) | 75 (87) 119 dc in bl. | (75 (87) 119) |
| 3.) | *1 dc, 1 ddc* | (75 (87) 119) |
| 4.) | *1 ddc, 1 dc* | (75 (87) 119) |
| 5. - 19.) | Repeat rows 3 x 8 and 4 x 7 alternating the two. | (75 (87) 119) |
| 20. - 21.) | 75 (87) 119 sl st. | (75 (87) 119) |

Cut and bind off the threads.

The basket is now done.

Fitting of the lining

(with a crochet base)

- 1.) Measure the baskets inside circumference and height. Add 5 mm to your measurements.

The inside circumference is found by using the radius of the basket:
 $2 \times \text{radius} \times \pi = \text{inside circumference}$

- 2.) Lay the fabric and draw the measurements of the basket with an addition of 5 mm.

ie.

Bottom + 5 mm

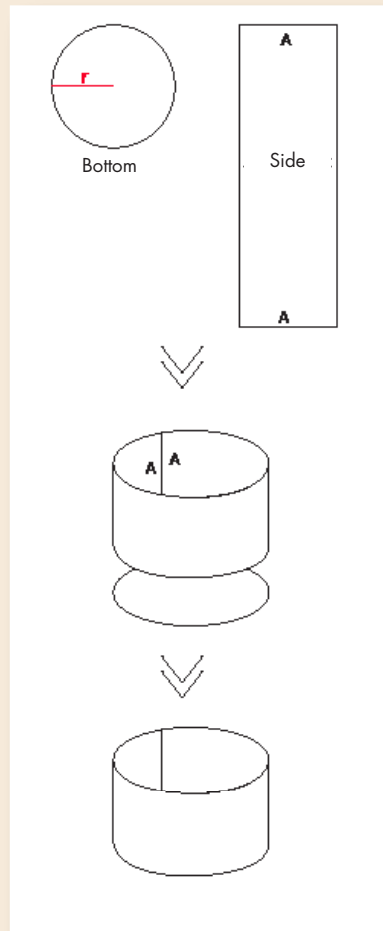

*Sidepiece = inside circumference + 5 mm
x height + 5 mm*

Tips!

For the drawing of the bottom you can use a compass.

- 3.) Cut out the 2 pieces.
- 4.) Sew the pieces together.
- 5.) Place the lining with the visible stitches facing the inside of the basket. Sew the base with temporary stitches in the row of dc in the back loop. And then so it at the front just under the 2nd row of sl st using invisible stitches.

The basket is done.

Good to know

Go handmade's collection is developed by the masters themselves - passionate crochets who love their craft.

Hook Size + Tightness

All baskets are crocheted with what we consider to be normal to firm gauge. The gauge that we think best suits the baskets.

Crocheters crochet very differently: some crochet with a hook size 2,0 mm and obtain the same size of design and quality as a person who crochets with a hook size 4,0 mm.

We owe this knowledge to the team of crocheters who join us for all our baskets. The key to crochet a specific size is a lot about the crochet style/hands/skills, rather than the size of hook.

Therefore, we will recommend a range of hook sizes up to: 4,0 – 4,5 mm.

In Gohandmade's big collection of accessories for the baskets you will find everything to give your basket the last touch - handles, labels, fabric, etc.
