Assembly

Sew the leave on top of the strawberry and sew also the parts that hang over the sides on to the strawberry. Sew the flower on the side of one of the strawberries.

Thread the nylon thread on a long sewing needle.

Begin by pulling the thread through a pink and a white ball. Take a strawberry and pull through.

Hereafter pull the thread through 3 balls; a white, a pink and one more white. Take the strawberry with the flower and pull through.

Now pull the thread through 3 balls again; white, pink and white. Take the last strawberry and pull through.

Finish with the 2 last balls, one white and one pink.

Now all balls and strawberries are hanging on the nylon thread.

Take a wooden clip and attach it with a solid knot on the end of the chain (See the photos below).

To ensure that the pram chain is really secure, you need to pull the nylon thread back through all parts one more time. Make sure you have enough thread to get back to the starting point.

When you are back where you started, you attach the second wooden clip.

Make sure all balls and strawberries are steady and secure before you attach the second clip.

When you are happy with the result, you weave in all ends!

Done!

Enjoy making this pattern :-)
