This pillow is worked using the “corner to corner-technique” also known as: “C2C”.  
The pattern contains a diagram and a description of each row. In this way you can keep track of how many pixels you need to work in each color. If no number is mentioned after the color, then you only need to work it once. The arrows in the written description shows in which direction you work. You begin in the right corner.

It's a good idea to bind off the ends as you go, so you don't need to bind off a ton of ends when finished ☺

If you find it difficult to keep track of the different yarn balls and to avoid that it tangles, then it's a good idea to wind some of the yarn up and attach it on clothespins. In this way you can easily keep the colors, you don't use, in place on the pins, while you're working.

Super Cute Design

## CORNER TO CORNER

### Row 1

1. Chain 5

2. Work 1 double crochet in 3<sup>rd</sup> ch.

3. Work dc in each of the next 2 ch st. You have now worked your first pixel.

## Row 2

1. Chain 5

2. Work 1 dc in 3<sup>rd</sup> ch from hook.

3. Work 1 dc in each of the next 2 ch. You have now worked one more pixel.

4. Now you need to work this pixel together with the first pixel. Begin by turning the pixel around and work 1 sl st on the left side of the first pixel. On the photo you can see how they are worked together.

5. Ch 2 (replaces first double crochet).

6. Work 3 dc in ch-space where you worked the sl st. You now have 2 pixels on row 2.

### Row 3

1. Ch 5.

2. Work a dc in 3<sup>rd</sup> ch from hook and then 1 dc in each of the last 2 ch.

3. Work 1 sl st in pixel below.

4. Ch 2 and work 3 dc in ch-space, where you worked 1 sl st.

5. Work 1 sl st in next pixel. Ch 2 and work 3 dc in ch-space, where you worked the last sl st. You now have 3 pixels and row 3 is finished.

## Corner decreases

1. Instead of finishing the row with ch 5, you work 3 sl st alongside the last pixel.

2. Continue working pixels on entire row.

3. Here you see how you can decrease on the row. If you need to decrease at the end of a row, you work the pixels together with 1 sl st.

## Assembly

1. Lay the pieces on top of each other.

2. Pull the yarn through 2 pixels.

3. Ch 2.

4. Work 1 sc in between the next 2 pixels.

5. Repeat until next corner with ch 2 and 1 sc between the pixels.

6. Work 1 sc in the corner.

7. Continue with ch 2 and 1 sc around the edge of the pillow.

8. Place the inlay pillow in the cover. Continue closing the cover, finish with 1 sl st.

Make 4 pompons.

Sew one pompon on to each corner of the pillow.
