Fringe

Cut a good bunch of 25 cm long pieces of yarn. You need a lot.

Make the fringe as pictured below.

1. Cut a good bunch of 25 cm long pieces of yarn. You need a lot.

2. The fringe pieces are fastened 1 by 1 to the sc's of the edge along the sides of the shawl in the following manner. You can use a smaller hook size to ease the work.

3. Fold the piece of yarn in half. Thread the hook through the first sc of the edging along the side of the shawl.

4. Pull the yarn through the st to make a loop.

5. Pull the ends through the loop.

6. And tighten lightly.

7. To make the fringe dense, follow the pattern of “add 2 strands of yarn to the first st, 1 strand in the next”. So, repeat the method to add another strand to the st. Thread the hook through the st and fold a strand of yarn in half

8. Pull the yarn through to make a loop.

9. Pull the ends through the loop.

10. Tighten lightly.

11. Repeat this fringing method in the next st of the edge. There are now 2 strands in the first st and 1 strand in the next.

12. Continue in the pattern: "2 strands in the next st, 1 strand in the one after that".

13. Continue this all around the two sides of the shawl.

14. To finish off the fringe, trim them to your desired length to even them out. Here, they are about 10 cm long.
