2. Now we are going to fold the end pieces to make a "knot".

3. Place the right part on top of the left part so it overlaps half of the left part.

4. Fold the other half of the left part (the part which is not covered by the right part) across the right part.

5. Fold the other half of the right part across the left part.

6. The end pieces are now folded into each other as you can see on picture.

7. Sew through all 4 layers of end pieces. Cut the yarn and weave in ends.

8. Turn the seam to the wrong side. We have now made a fine “knot” and the headband is assembled 😊

Enjoy!
