*With Bohème Velvet "double", thread a needle with approx. 25 cm yarn.*

*Put the needle in from under the chin and out at the side of the eye.*

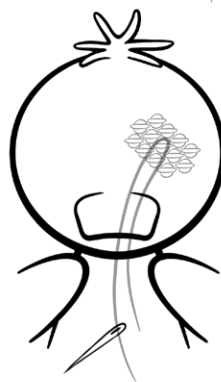

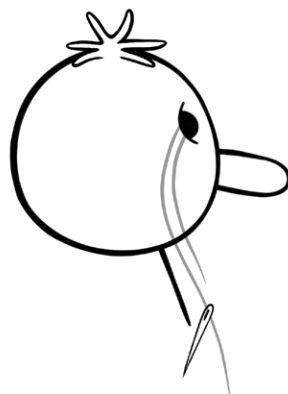

*Guide the thread around some stitches by the eye and then back out under the chin. Tighten the yarn to form the hollow around the eye, tighten the yarn through a few stitches under the chin.*

*The hollow for the eye is now completed.*

*Repeat the process for the other eye.*

# Good to know

## Hook Size + Tension

Crocheters crochet very differently: some crochet with a hook size 2,0 mm and obtain the same size of design and quality as a person who crochets with a hook size 4,0 mm. We owe this knowledge to the team of crocheters who join us.

The key to crochet a specific size is a lot about the crochet style/hands/skills, rather than the size of hook. Therefore, we will recommend a range of hook sizes.
