PATTERN INFORMATION

My patterns are tightly stitched with a smaller than average hook, this is to keep the rounds neat and prevent the stuffing from being seen.

Use stitch markers to mark your rounds. I mention in the pattern a few places where they help with situating Ruddocks features.

You should now have three sets of feathers. Use the image above with all the feathers to help when sewing them all to the body.
Starting with the connected large tail feathers, sew them in the middle of Rnd 9 of the body. They should touch the surface on which Ruddock is sat on when placed.
Sew the now connected middle and small feather, beside the large feathers 2 rnds up on Rnd 11. They should overlap slightly, use the second image on Page 3 to help you.
Ruddock is now complete.
