Good to know

Needle Size ≠ Tension

Knitters knit very differently: some knit with a needle size 2,0 mm and obtain the same size of design quality as a person who knits with a needle size 4,0 mm. We owe this knowledge to the team of knitters who join us.

The key to knit a specific size is a lot about the knitting style/hands/skills, rather than the size of needles.

Therefore, we will recommend a range of needle sizes.
