PATTERN INFORMATION

Lagoon bag is a beginner-friendly crochet project. It has a one-piece structure that folds perfectly into a small pouch bag (a perfect gift idea!). The stitch I chose creates a solid ribbed fabric that has stretch to it. Characterised by pearly finish that creates a fascinating iridescence, reminiscent of a calm ocean on a sunny day. The main hook needed is large, which makes it a simple and quick project to complete.

Row 93: ch 1, turn, hdc slpst blo 35, ch 7
 Row 94: turn, hdc slpst 6, hdc slpst blo 35

Join row 94 with the first chain by making 41 slip stitches (take the back loop from row 94 and a loop from the chain). Fasten off and leave a long tail for sewing.

ASSEMBLE

Turn your work inside out. Insert your buckle in the short strap and sew by the middle with a tapestry needle.

With your 3.5 mm hook sc all the way around skipping your short strap with the buckle. This will make your bag sturdier (you can use a 2mm hook on the opening of the bag to make it tighter, just not the long strap). Fasten off and weave the ends.

Sew the bottom of the bag by inserting the tapestry needle on one loop of the first row and skipping the second row. Keep alternating until you get where you started. Fasten off and weave the ends.

Now you can adjust the long strap into the buckle.

Enjoy!
