ABBREVIATIONS

ch = chain

dc = double crochet

fo = fasten off

sc = single crochet

ss = slip stitch

st(s) = stitch(es)

Fdc = foundation dc

FPdc/BPdc = front post / back post dc

bobble = *yarn over hook, insert into next st, yarn over, pull through st, yarn over, pull through 2 loops* fives times, yarn over, pull through all remaining loops.

FLO/BLO = front / back loop only

RS/WS = right side / wrong side

FO = fasten off

* * = repeat instructions from * to *

INFO AND TIPS

Turning ch does not count as a st throughout. If your edges are a bit wonky you can try working ch2 in place of ch3, but remember that your edges will be hidden within your seams anyway.

When working your bobbles, alternate between C, D, E, F and G in your chosen order. You could work whole rows of one colour, or single bobbles. Carry A through your bobbles, but fasten off your bobble yarn after each bobble and knot your ends at the back of your work. If working whole rows of bobbles in one colour, you can FO at the end of the row instead and carry your bobble yarn through your dc sts. When changing colours, do so during the final yarn over of the st BEFORE the change.

It might help to cut lengths of your bobble colours in advance so you can grab them one at a time as you need them. Just work a bobble stitch as usual, cut your yarn, undo the stitch and use that length of yarn as a guide for cutting more.

You can easily alter the length of your piece by working more or fewer repeats.

You can work any size sleeve you like, see the sizing info for sleeve depth measurement. I.E., if you're making a size M but you would prefer a slimmer sleeve, you could work the instructions for size S instead.

All of your panels are worked from the bottom up. Your sleeves are worked in turned, joined rounds.
