INFO AND TIPS

- This pillow is worked in a continuous round. Use a stitch marker to mark the first st of a round and keep moving it up with the first st of each new round worked.
- Changing color in a round: before working the last yarn over to complete the stitch before the new color, grab the new color to finish the current stitch.
- When the pillow is ready to stuff, the bottom will be seamed first, then the pillow form will be inserted and the top opening is seamed last.

PILLOW

With MC, leave a 36" / 92 cm tail for seaming, ch 78, join with a sl st to the first ch. Follow graph and graph instructions to complete the pillow.

GRAPH INSTRUCTIONS

- Each square of the graph represents 1 blo sc st.
- Start where the arrow indicates and place a stitch marker in the first st.
- Once the first 39 sts of the graph are worked in a round, continue the round with the MC working blo sc sts around. Once you have finished the round, start the next round by following the graph again.
- Remember to work in a continuous round marking the first st of each round with the stitch marker.
- After the last st of the last round, sl st into the next st to join, fasten off a 36" / 92 cm tail for seaming.
- Once you complete the graph, continue to the Finishing instructions.

FINISHING

Weave in any ends except the tails for seaming.
With a yarn needle and the bottom tail, seam closed the bottom of the pillow, weave in end.
Insert pillow form through the top opening, with a yarn needle and the top tail, seam closed the top of the pillow, weave in end.

Enjoy!
