INFO AND TIPS

This pattern is written in US Terminology.

This pattern is written in crochet shorthand. Example: "SC 1" means to single crochet in the next stitch and "SC 30" means to single crochet into the next 30 stitches.

A smaller hook is needed for round 1. Crochet loosely to account for the smaller hook. Your work should be loose enough to lie flat.

At the end of round 1, an alternative join method is used to make the connection to the base seamless before starting the rest of the bag. Either a tapestry needle or crochet hook can be used.

To avoid a seam down the side, use the invisible join method. Watch the video tutorial **here**.

If not using the invisible join method, a CH 1 at the beginning of the round is necessary. This will create a seam in your work.
