INFO AND TIPS

- Colour 30/26/23 is stated as colour A/B/C throughout the pattern
- Throughout the pattern, you will be using two colours per row. Colour B is used for every row, whereas colours A and C are used every two rows.
- Change colour by stopping crocheting right before you pull through the last two loops of a dc, place the new colour over the hook and pull it through the last two loops
- Carry the yarn you are not using along the back of the work and work over it to lock it in place

Special Stitches:

Fake Double Crochet = insert your hook into the first st and complete a sc like normal. Insert your hook into the first of the two vertical loops, complete a sc like normal.

Crab Stitch = this stitch is worked from left to right if right-handed and right to left if left handed. Instructions written for right-handers. Insert the hook from front to back in the st to the right, yo and pull through the st, yo and pull through both loops - this makes 1 crab st.
