PATTERN INFORMATION

This cute Manta Ray is made by crocheting 2 panels that are crocheted together afterwards. This pattern is so versatile. Feel free to get creative with yarn type, color, or overall style!

If you want to make it in a different yarn type, just follow the pattern regularly but with the correct hook size for the yarn in question.

ASSEMBLY

Now, take the two panels and stack them on top of one another, and using the yarn you didn't cut after the top panel, start to crochet all the way around the manta ray. On the outward corners, put 3sc in the stitch so the corner rounds nicely. Once you get to the tail point, chain 9, turn, 8ss, then return to crocheting around the manta fish. Once you are nearly done, lightly stuff so it still keeps its slightly flat shape. When you meet up with your starting point, join with a ss and finish off, tying off and weaving in ends.

Enjoy!
