PATTERN INFORMATION
The oversized wrap is made up of squares which are attached with the JAYG (join as you go) method and then built up in sections which makes this wrap easily customizable with width, length and even style..
The attaching of the wrap has step by step diagrams, although once you have done one square you can join them all!

The pattern will follow the color variation on the photos, but will not give a pattern for each of the different color variations of the squares.

COLOR VARIATIONS

If you are following the pattern without using your own color pattern, then my color variation pattern followed:

Color A – Primrose = always the V stitch row in each granny square
Color B is always followed by Color C, then Color D, finishing with color E.

Whenever I started a new square I would start with a next color, but always following the same color order B-E

FINISHING OFF & WRAP STRINGS
With col. E

RND1: Start at the back where a join for the SGS started and place a sc in each st around (sc, ch2, sc) for the corners. Make sure the wrap's right side is facing you. Slst to join,

RND2: ch2, dc in each sc around, (dc, ch2, dc) I the ch2 of each corner, slst to join.

Wrap ties:
At the two corners made in RND2

RS of wrap: with the wrap facing you attach yarn with a slst in the ch2 corner from RND (on the right side of the wrap) ch as many chains as you wish (the pattern here was 150 ch and it was long) dc in the 3rd ch from the hook and each ch made, slst into the next dc on the front of the wrap.

LS of wrap: create the same ch as the RS, be careful to make sure the stitches are facing the right side of the wrap.
