## INFO

For this project, we will create an opaque and stretchy fabric by alternating between two different stitches in each round: slip stitch and half double crochet slip stitch.

## Slip Stitch

Here's how you do it. First, insert your crochet hook into the stitch where you want to make the slip stitch. Then, wrap the yarn over the hook from back to front. Pull the yarn through both the stitch and the loop on your hook in one motion.

## Hdc Slip Stitch

This stitch is a combination of a half double crochet and a slip stitch, creating a slightly taller stitch than a regular slip stitch. First, wrap the yarn over your hook. Insert your hook into the stitch where you want to make the half double crochet slip stitch. Wrap the yarn over your hook again. Pull the yarn through the stitch, now you have three loops on your hook. Pull the yarn through all three loops on your hook in one motion.

At the end of your project, add a label to your scarf to highlight that it's handmade: a perfect touch of uniqueness!
