PATTERN INFORMATION

Calendula is crocheted from side to side in one piece. Stitches are increased on one side and left unworked on the other side, creating spikey garlands. The pattern consists of rows of half double crochet and slip stitch in the third loop. Each spike section features rows of contrasting puff stitches. The edging is worked in half double crochet and finished with contrasting tassels. The shawl is reversible, although the two sides are not identical.

3lo: Third loop only

PS (Puff stitch): [Yo, insert hook into st, draw up a loop] 5 times into same stitch, yo, draw through all 11 loops on hook, ch1.

hdc3tog (Half double crochet 3 together): [Yo, insert hook, draw up a loop] 3 times, yo and draw through 7 loops on hook.

The yarn to be used for each row is indicated in the row label, e.g. "Row 1 (WS, A)" is a WS row worked with yarn A.

US crochet terminology used throughout.

pompom x hobbii

Unless otherwise stated, do not fasten off yarn A between colours, and carry it up on the wrong side of your work. When picking up a carried colour, pull up a loop to the height of a ch before making your first st. Change colours by working the first chain in the new colour.

When working slip stitches in the third loop only, make sure your stitches are not too tight as this will make working into the following row difficult.

Tassel

Cut 8 lengths of yarn B and yarn C, each about 25cm / 10". Attach fringe to ch2-spaces of spikes as follows, alternating yarns B and C: folding the length in half, insert the folded end through the centre of the st using a needle or hook, then draw the loose ends through the loop. Once all fringe has been added, comb through them and trim carefully to 10cm / 4" or desired length.

Enjoy!
